EDITORIAL NOTE

We are pleased to present International Journal on “Technical and Physical Problems of Engineering” (IJTPE) in English and electronic print published seasonal periodically by the partners of International Organization on “Technical and Physical Problems of Engineering” (IOTPE) including Institute of Physics of Azerbaijan National Academy of Sciences (Baku, Azerbaijan) and Azerbaijan Research Institute of Energetics and Energy Design - Azerenergy (Baku, Azerbaijan), Seraj Higher Education Institute (Tabriz, Iran), Gazi University (Ankara, Turkey), University of Pitești (Pitești, Romania), University of the Basque Country (Bilbao, Spain), Near East University (Lefkosa, TR Northern Cyprus), Ostfold University College (Fredrikstad, Norway), Istanbul Technical University (Istanbul, Turkey) and Isik University (Istanbul, Turkey).

The IOTPE organization is a scientific association, founder and holder of International Conferences on “Technical and Physical Problems of Power Engineering” (ICTPE) in 2002 (Baku, Azerbaijan), 2004 (Tabriz, Iran), 2006 (Ankara, Turkey), 2008 (Pitești, Romania), 2009 (Bilbao, Spain), 2010 (Tabriz, Iran), 2011 (Lefkosa, Northern Cyprus), 2012 (Fredrikstad, Norway), and 2013 (Istanbul, Turkey).

Considering the acquired experience in the eighth past conferences, International Conference on “Technical and Physical Problems of Power Engineering” (ICTPE) and to promote the quality and quantity of the ICTPE Conferences holding, the ICTPE Conferences name and topics are improved to International Conference on “Technical and Physical Problems of Electrical Engineering” (ICTPE) in the ninth ICTPE-2013 Conference (Istanbul, Turkey), and also fixed for the next years to cover subjects in all fields and topics of Electrical Engineering.

The IOTPE organization is generally managing and performing a set of scientific-executive affairs to holding International Conference of ICTPE, publishing International Journal of IJTPE and directing International Enterprise of IETPE.

Successful organizing and holding ICTPE conference and publishing IJTPE journal indicates close friendship and scientific collaboration of the scientists and researchers of member countries in engineering field development between the countries. The importance of holding ICTPE conference and publishing IJTPE journal are mutual understanding and recognition between the organizer countries through scientific, social and cultural development where yields increasing international cooperation in scientific areas.

Furthermore, the importance subjects of ICTPE conference and IJTPE journal are related to the opportunity for researches and scientists from different countries to clarify and discuss the latest and mutual research achievements and improvements as well as generalization of the internationally obtained results in the area of engineering and new technologies.

The conducting of ICTPE conference and IJTPE journal are based on important principle of the cooperative relationship between science and industry. This relationship is a basis for the activity of contemporary engineering companies. It is well known that important technical advance is possible only due to achievements of fundamental science.

Publishing IJTPE journal is getting increasing importance for cooperation of researchers and scientific centers of different countries. We strongly believe the journal provides the establishing scientific relationships and also increase the cooperation of east and west countries on the subject of engineering fields and applying the new technologies on solving technical and physical problems.

By the mean of IJTPE journal publication, the cooperation with the partners from the involved countries and also all of the worlds will be fostered. It is the main objective to enhance the level of multilateral exchanges, the involvement of authors in developing and improving the scientific research.

It is our honor that all issues of IJTPE journal are cited by Islamic World Science Citation Center (ISC) supported by Iranian Ministry of Science, Research and Technology.

We will do our best to disseminate the journal’s results and forward to the possible technological transfer of the accumulated knowledge of the scientific contributions of the authors.

Finally, we wish to express our gratefulness to all the authors and scientists from all over the world who have scientific reports in preparing the transactions published in the journal.

Editors-in-Chief
Academician Arif M. HASHIMOV
